

Republic Services Donates \$500 to Blue Sky Initiative

The City of Victoria Environmental Services Department is hosting the Idle Free Jamboree, a Blue Sky initiative soap box derby, in May 2012. The goal is to raise awareness about harmful emissions caused by unnecessary idling by putting kids behind the wheel of their own environmentally-friendly, emission free cars. Republic Services recently presented a \$500 donation in support of the Idle Free Jamboree. Darryl Lesak (left), Assistant Director of Environmental Services and Kate Garcia (seated on soap derby car), Environmental Education Specialist, are shown accepting the donation from Denis Delesandri (right), Manager of the City of Victoria Landfill for Republic Services.
